April/May/June 2016

The Health Sciences Research Unit: Nursing (UICISA: E) is an international accredited research centre.

The latest accreditation was in 2013 by the Foundation for Science and Technology (FCT) and the European Science Foundation (ESF).

The UICISA: E vision to the Horizon 2020 (7 axes) was presented in the newsletter published in Journal of Nursing Referência, series IV, issue 5.

In this Newsletter, we describe International Collaboration Axis

Axis – International Collaboration/Action

Nursing Research in the World

With a strong international network, and still expanding, foundations for nursing research are set with the outside world and for the outside world. With international collaboration, knowledge and practices are shared; bridges are built; and ideas are discussed.

Joint projects make us stronger for funding.

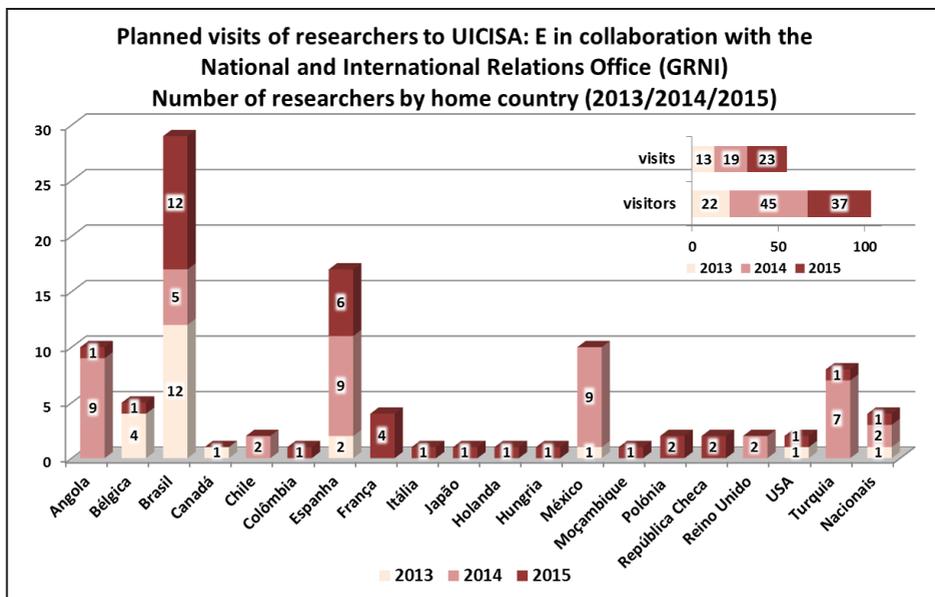

We are available to be part of international innovative projects.

International Joint Projects

➤ Projects funded by the Erasmus+ Program (KA2 – coopération en matière: d'innovation et d'échanges de bonnes pratiques Partenariats Stratégiques pour l'Enseignement Supérieur)
MARTINS, José Carlos; BAPTISTA, Rui; COUTINHO, Verónica – SimuCarePro – La simulation en santé pour développer un partenariat entre apprenants et professionnels dans la formation médicale et paramédicale. [BE01 (BELGIQUE)] - Leading institution: Haute Ecole Libre Mosane, Belgique.

➤ Projects funded by the European Union's Health Program (2014-2020)
APÓSTOLO, João Luís Alves – FOCUS- Frailty management Optimisation through EIP AHA Commitments and Utilisation of Stakeholders input (Project / Joint action 664367 / FOCUS – HP-PJ-2014) – Leading institution: Valencian International University, Spain.

Next UICISA: E biennial, 5th Congress on Nursing Research of Ibero-American and Portuguese-speaking Countries, will be held in June 2016.

This year, the event is enriched by the integration of the International Symposium on Evidence-Based Health Care.
