

July/August/September 2015

The Health Sciences Research Unit (UICISA: E) is an international accredited research centre.

The latest accreditation was in 2013 by the Foundation for Science and Technology (FCT) and the European Science Foundation (ESF).

The UICISA: E vision to the Horizon 2020 (7 axis) was presented in last newsletter (published in Revista de Enfermagem Referência, series IV, issue 5).

In this Newsletter, we describe the 1st and 4th Axis – Production and Dissemination of Scientific Knowledge.

AXIS 1

PRODUCTION OF SCIENTIFIC KNOWLEDGE

 Base de dados
UICISA: E

TOGETHER WE GO HIGHER

Deeply committed to remain at the highest levels of evaluation parameters (Productivity, Relevance, Feasibility and Training).

If you wish to join us to turn good ideas into innovative projects, bringing together multidisciplinary research and publish in high quality international journals,

Send a message to investiga@esenfc.pt

AXIS 4

DISSEMINATION OF SCIENTIFIC KNOWLEDGE

REVISTA DE ENFERMAGEM | JOURNAL OF NURSING

SHARING RIPPLES OF KNOWLEDGE

Since 1998, we edit the *Revista de Enfermagem Referência*, an International, peer-reviewed, indexed, Scientific Journal.

We encourage the submission of original articles of high-level evidence in English.

1st and 4th Axis – Production and Dissemination of Scientific Knowledge

In order to enhance the production, we set a number of actions to empower the researchers:

- Establish a minimum of productivity criteria to access the status of integrated researcher.
- Promote the participation of integrated researchers in international networks (Axis 7).
- Maintain the researchers' mobility flow to scientific meetings and international research units.
- Promote scientific publication and dissemination activities, while maintaining the regular publication

of an indexed scientific journal of international dissemination, as well as a monographic series.

e) Organize international scientific meetings on a regular basis by offering an opportunity for researchers from different countries to share the results of their scientific productivity and facilitating the creation of networks.

Next UICISA: E biennial, 5th Congress on Nursing Research of Ibero-American and Portuguese-speaking Countries, will be held in 2016.

This year, the event will be enriched by the integration of the International Symposium on Evidence-Based Health Care.
